

## **Canteen Food**

*Can the school canteen more food variety? This can also shorten queues during recess.*

Based on Health Promotion Board (HPB) Healthy Meal School Programme (HMSP), vendors can only sell healthy food options like brown rice, wholemeal bread, fruits, meat, vegetables, snacks and drinks with healthier choice symbol to ensure that students eat healthily and have a balanced diet. Please note that the vendors need to maintain a good balance between healthy diet and varieties vis-à-vis costs.

The school will continue to stagger the recesses to cut down on the long waiting time and ensure students have sufficient time to buy their food and eat during recesses/lunch breaks.

A few stalls are also currently vacant. We are looking for operators to fill the vacant stalls and if you know of suitable operators, please encourage them to approach the school.
